6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

Shared Teaching: Empowering Collaboration for Deeper Learning

HLCC follows an innovative Shared Teaching methodology which empowers effective curriculum deliberation and amplifies student learning. Two or more faculty members of a department work collaboratively for teaching a particular course together, ensuring optimal guidance and enriching classroom experiences. Collaborative teaching strengthens content delivery and conceptual clarity among students for enhanced learning. It also fosters a vibrant academic environment with shared research and intellectual partnerships among faculty. As senior faculty provide mentorship to junior colleagues, it nurtures future educators. Students gain diverse perspectives and insights from different teachers and are also benefited from flexible teaching strategies. This results into a holistic development of students with improved learning outcomes, results, interpersonal skills, and communication abilities.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

Use of TeachUs App for attendance

As a step towards digitalization of the attendance process, the college procured the TeachUs App. Students marked their attendance in this application on their mobile phones in their respective classes after the teacher operated the Radar on their mobile phones. This has helped students to continuously monitor their attendance and to be more vigilant. This has also helped the college save a lot of resources by minimizing human intervention and be more transparent.

Project-based learning and evaluation

In order to provide experiential learning to students, all M Com students of the college were required to prepare projects in their final semester as a part of the internal evaluation. B Com students who have Statistics as their main subject must prepare team projects in one course as a part of their curriculum. Student evaluation was based on presentations and viva-voce examination. This provided a lot of practical insights to the students to complement theoretical knowledge gained in the classrooms.

Project-based learning and evaluation

In order to provide experiential learning to students, all M Com students of the college were required to prepare projects in their final semester as a part of the internal evaluation. B Com students who have Statistics as their main subject must prepare team projects in one course as a part of their curriculum. Student evaluation was based on presentations and viva-voce examination. This provided a lot of practical insights to the students to complement theoretical knowledge gained in the classrooms.
